## Course Description

In the face of the novel coronavirus (COVID-19) pandemic, online and blended learning is now an educational fact of life. Developing Strategies for Online Teaching and Learning is a new program designed to support your preparations for the upcoming school year. You will gain useful strategies and helpful tools to create meaningful online and blended education experiences. You will have the opportunity to explore your relationship with technology, reimaging teaching strategies, and develop positive, engaging experiences for your learners.

**“Transition from Blackboard to Broadband: Online Training for Online teaching”** is a four-week e-course that examines best practices and strategies related to designing and implementing virtual learning experiences. The action-oriented workshop combines cutting-edge research and theory with practical strategies, culminating in the design and development of an online learning project – Google suite, Google Classroom, assessment tools, animated videos and AutoDraw for your learning context. Engage with content in a variety of channels, connect and reflect with fellow participants through conversations, project feedback, and brainstorm.

## What you'll learn

- Build on teaching skills and methods you successfully used in-class instruction
- Explore and develop practical strategies for online teaching and learning
- Learn to evaluate and utilize technology to support your teaching and learning goals
- Design an online or blended learning experience tailored to your individual learning environment and gather feedback from fellow participants
- Participate in an active online learning community and develop professional relationships that can help expand your education practice

**Duration** - Two week long

**Mode** - Asynchronous

**Subject** - Education and Teaching

**Difficulty level** – Introductory

**Credit** - Certificate of Completion

## Note:

### Asynchronous online teaching

Teaching materials will be posted online, and learners work through them in their own time, communicating with each other and the teacher via discussion forums, or even by email. The learners can work at their own pace and at times of day which are convenient for them. There may still be deadlines for quizzes and assignments to be submitted for feedback, and there may be a recommended schedule for students to follow so that they have some idea of what they should be doing and when.

**Hope you will enjoy the course!!**

**Happy learning and stay safe!!**

## **DETAIL OF THE COURSE:**

The course was organised by Dev Samaj College of Education, Sector 36-B, Chandigarh and sponsored by SCERT and Department of School Education, Government of Punjab on avengers academy Platform by Boxfy Innovative Services (Link: <https://punjab.dsceмоocs.in/public/> ) as a Learning Management System. The registration process was started by filling the Registration Form (Link: <https://punjab.dsceмоocs.in> ) given on the brochure. Total **100 officials** were provided by Punjab Education Department who were enrolled through the registration process and joined in a WhatsApp group (Link: <https://chat.whatsapp.com/FjAFG7uYJCeEqeTGvQb2IH> ) through which they received all necessary and relevant information about the course.

The Overall course was delivered via Asynchronous Mode. Teaching material was posted online, and learners worked through them in their own time, communicating with each other and the teacher via discussion forums, or even by email. The learners could work at their own pace and at times of day which was convenient for them. The course was further divided into day wise modules. Day wise content followed by Quiz and Assignment was provided to participants for each day by Resource Persons Dr. Anita Nangia, Dr. Seema Sareen, Dr. Ritu Mago and Ms. Shivani Sharma. Feedback for each day was also taken from the students in Feedback Form. The content was provided through Multimedia. Participants were allowed to discuss their doubts on Discussion Forums. Announcements were made as per the requirement in the announcement section as well as in the WhatsApp Group.

The fulfilling criterion for getting the certificate was the completion of 40% of Quiz and Assignments. Final Quiz was conducted on the last day to check the understanding of the concepts discussed throughout the course. Overall Feedback was also taken from the participants. Almost all the participants gave positive feedback and showed their interest in attending such types of courses again in the future.

### Introduction

#### Online Teaching-Learning: A Transition -(Dr. Ritu Mago)

The world has taken a hit due to the widespread impact of the CoronaVirus. There is no sector or industry remaining untouched. The Teaching-Learning Spectrum has also taken an enormous hit. To combat the effect induced, educators must use the Online Learning Platform. It has been observed that students work harder when they get perspectives out of the work assigned. The education fraternity world over is trying its best to deal with the prevailing situation and India is not an aberration. We have seen the essence of Online Teaching just giving momentum in India. This transformation in the process is gradual and welcoming. After having deliberations with educators across the country, the common line of thought i.e emerging is the level of engagement of students in the online Teaching Learning Spectrum. The engagement level as a sign of success for online Teaching Learning is not encouraging as of now but we also see a glimpse of hope and an opportunity to innovate.

#### ICT in Teaching-Learning -(Dr. Seema Sareen)

Information and Communication Technology (ICT) has revolutionized all the spheres including teaching-learning. Keeping in view the advancement in the digital world, teachers need to equip themselves with necessary professional abilities for using ICT for teaching and learning.

There are several Free and Open Source Software that can be used in the teaching-learning process eContent. Some of the software are subject-specific which can enhance the classroom transaction as

## Introduction

### Podcasting -(Dr. Ritu Mago)

A podcast is an episodic series of spoken word digital audio files that a user can download to a personal device for easy listening. Streaming applications and podcasting services provide a convenient, integrated way to manage a personal consumption queue across many podcast sources and playback devices.

### Brochure Making using MS-Word - (Ms. Shivani Sharma)

A brochure is an informative paper document. These days we are using e-brochures which is digital version of the brochure. There are lots of softwares which can be used to make e-brochures like Corel Draw, Photoshop, etc. But we can make a simple brochure via using MS-Word too.

### Mind Mapping - (Dr. Seema Sareen)

A mind map is a graphical way to represent ideas and concepts. It is a visual thinking tool that helps to structure information, helping you to better analyze, comprehend, synthesize, recall, and generate new ideas. A mind map is a diagram that displays information visually. The subject of a mind map is always located in the center of the map. From there related ideas and keywords branch out in all directions resulting in a radiant structure. One of the very popular software to create mind maps is Mind master software from Edrawsoft.com. The software is very user friendly and easy to use. Hand on with this tool are provided in this session. The link for Mind master software is

### Creating Quizzes in Google Forms -(Dr. Seema Sareen)

Google Forms is a fantastic tool for creating forms of all kinds, including quizzes, surveys, and questionnaires. A variety of question formats are available like short answer, paragraph, multiple-choice, checkboxes type etc. Forms allow you to watch responses appear in real-time and then gather results in a spreadsheet and analyze data right in Google Sheets.

All you need to get started is a Google account. You can access the feature inside Google Drive. Just click the New button, then choose Form. From where you can select a blank quiz template to create a quiz

In video 1 steps to add different formats of questions as well as images in the quiz are discussed

In video 2 customization of quiz, settings, and how to send a quiz are discussed.

In video 3 Discussion regarding imposing a time limit to the quiz with the help of add-on "formlimiter" is done. We install an add on FormLimiter from add-ons in more menu

In video 4 writing mathematical equations and expressions is discussed. We can write mathematical equations with the help of chrome extension "Equatio", also an online equation Editor on the link [www.codecogs.com](http://www.codecogs.com) and a google forms add-on "Hypatia"

### Testmoz: Online Test Generator Tool -(Ms. Shivani Sharma)

Testmoz is a very quick and simple way to generate an online quiz for your students. The program has many options so you can customize the quiz and the responses your students will receive.
