

Dev Samaj College of Education

Sector 36-B, Chandigarh

Institutional Development Plan for Next 10 Years

‘Let scientific temper live through you’

With this as our mission Dev Samaj College of Education has made a name for itself with always planning ahead of time in the light of the dynamic field of education and ever developing technology which is growing at a lightning speed than ever before with ARTIFICIAL INTELLIGENCE becoming the word of today. We can no more close our eyes to its presence which is very much here to stay and transform education in every possible way and our lives too. If we fail to plan today with all this in view we will be failing in our tasks as educators. Dev Samaj being a pioneer institute of education will be focusing on the following major areas of development in the next 10 years:

1. Broader Objectives of education with Technology and Artificial intelligence as its Focus Areas
2. Enrichment of curriculum in line with International standards and Global outlook.
3. Innovative methodologies for 21st century classroom and beyond the classroom making the experiences more enriched.
4. Skill Development with its main focus on educational technology to help entrant teachers with technological and pedagogical skills for 21st century.
5. Professional development of teacher educators to be prepared for next Education revolution which is going on in the world with Global classrooms and artificial intelligence in its wings.
6. Developing and accessing improved educational resources.
7. Customizing and humanizing educational tools to cater to diversities and individual differences.

INSTITUTIONAL DEVELOPMENT PLAN FOR NEXT 10 YEARS
