

PRINCIPAL'S WELCOME ADDRESS

Good morning and very warm welcome to all of you to the Four weeks MOOC on 'Effective Problem-Solving and Mathematical skills'

As Mathematics is the Gatekeeper of all the subjects, its importance in this fast moving world has increased. Mathematics helps us think analytically and have better reasoning abilities.

My dear students, you live in an age of information and technology. You need to be able to think critically about many complex problems of life, and also need to analyze and think logically about new situations, and communicate your solutions clearly and convincingly to others. Many intelligent and motivated students without mathematics back ground lag behind in many spheres of life because of little or no basic mathematics knowledge.

This four weeks MOOC on 'Effective Problem-Solving and Mathematical Skills to be organized by the college under the able guidance of Dr. Kiranjit Kaur and Ms. Shivani Sharma has been an initiative to equip the students with basic mathematics and problem solving skills.

I wish you all fruitful learning experience and I warmly welcome you again and wish you all success in future.

Principal

Dr.(Mrs.) Agnese Dhillon

Dev Samaj College of Education, Sector 36-B, Chandigarh
