Reflections:

It was a great opportunity to learn and grow as a prospective teacher. The experience gained from teaching such wonderful students is worth cherishing. They had a zeal to learn more and to know things which goes beyond the syllabus. They all had an amazing thought process; beautiful handwriting and most importantly were very cooperative.

Suggestions :

- There should be proper classrooms for the students of different classes.
- Other set back I observed that of the gap between the English medium student and a Hindi medium student. They all have the capability to grasp the language which can be truly beneficial for them in the long run.

Reflections:

Enjoyed teaching in Hamari Kaksha. It was a great opportunity to learn and grow as a teacher. Teaching these kids was very satisfying and a great experience. Teachers here are very dedicated and helpful. They had the zeal to learn more and to know things which goes beyond the syllabus. They all were very cooperative.

Suggestions :

- There should be proper classrooms for the students of different classes.
- The Hindi medium students facing challenges to adapt in English medium

Reflection:

It was a great opportunity to learn and share the knowledge with others. My first teaching experience taught me a lot about what it means to be a teacher and a lot about myself, as a future educator. I enjoyed every moment teaching such wonderful students. They learn everything with great understanding and are always eager to learn new things. All the students were very cooperative and kind.

Suggestion:

- Proper environment is mandatory for a students to prosper. Proper classroom and furniture should be provided.
- Many Students were facing problem in learning English. Special Program should be started so that all the students can easily understand and grasp English language easily.

Reflections: It was a great opportunity to learn and grow as a prospective teacher. I had a great time with the students. They all were full of energy and always eager to learn new things. The students were very punctual, always on time. It helped me in becoming more confident as a teacher. I thoroughly enjoyed my teaching experience. My Heartly Thanks to my college authority and “Humari Kaksha” to give me this opportunity.

Suggestions:

- Initiatives need to be taken to improve attendance.
- More Focus should be given on the reading part of language subjects.

Reflections:

I personally believe that we are currently living in one of the most wonderful and interesting era. Communication can now be done in vast distances through the internet as a modern magic. I was very happy to see that today's generation children are very active to participate in e-learning. It was a great opportunity to learn and grow as a prospective teacher. The experience gained from teaching such wonderful students is worth cherishing. They have passion to do their worksheets with good handwriting.

Suggestions:

- Interactions with students is very much needed to build up their interest instudies.

- Extracurricular activities should be organized so that students get more interest to attend classes regularly.

Reflections: Enjoyed teaching in Hamari Kaksha. It was a great opportunity to learn and grow as a teacher. Teaching these kids was very satisfying and a great experience. Teachers here are very dedicated and helpful.

Suggestions :

- More classrooms should be built as students sit outside and study.
- Surroundings of the school should be cleaned up regularly.
- The Hindi medium students facing challenges to adapt in English medium environment can use the following tips and can defy all such issues—
- Read everything in English.
- Listen to English songs or Audiostories.
- Make your own vocabulary notebook.
- Develop the habit of learning new words.
